QUICK SERVE RESTAURANT MANAGEMENT SERIES EVENT

PARTICIPANT INSTRUCTIONS

- The event will be presented to you through your reading of the 21st Century Skills, Performance Indicators and Event Situation. You will have up to 10 minutes to review this information and prepare your presentation. You may make notes to use during your presentation.
- You will have up to 10 minutes to make your presentation to the judge (you may have more than one judge).
- You will be evaluated on how well you demonstrate the 21st Century Skills and meet the performance indicators of this event.
- Turn in all of your notes and event materials when you have completed the event.

21st CENTURY SKILLS

- Critical Thinking – Reason effectively and use systems thinking.
- Problem Solving – Make judgments and decisions and solve problems.
- Communication – Communicate clearly.
- Creativity and Innovation – Show evidence of creativity.

PERFORMANCE INDICATORS

- Explain the nature of customer service in the hospitality and tourism industry.
- Explain the role of restaurant management systems.
- Determine strategies for resolving customer-service situations.
- Demonstrate a customer-service mindset.
- Handle customer/client complaints.

EVENT SITUATION

You are to assume the role of a general manager for BETTER BURGER, a fast-food restaurant with two drive thru lanes. The district manager (judge) wants you to suggest methods to handle complaints about new technology in the drive thru.

The BETTER BURGER you manage recently upgraded the point-of-sale technology in the drive thru lanes to be 100% generative AI. The management system uses AI knowledge based on data pulled from the BETTER BURGER menu and can generate responses, adapt in real-time, and provide a personalized experience for each customer.

Unfortunately, there have been challenges with the system. While 60% of orders are smooth, the system has problems interpreting different dialects, dealing with background noise, understanding special orders and when customers stop and restart an order. If the AI system cannot successfully confirm the order with the customer, an employee is notified and takes over. This has led to frustrated customers and delays in the drive thru lanes.

The district manager (judge) wants you to suggest methods to handle the customer complaints and make the drive thru experience better overall.

You will present suggestions to the district manager (judge) in a role-play to take place in your office. The district manager (judge) will begin the role-play by greeting you and asking to hear your suggestions. After you have presented your suggestions and have answered the district manager's (judge's) questions, the district manager (judge) will conclude the role-play by thanking you for your work.

JUDGE INSTRUCTIONS

DIRECTIONS, PROCEDURES AND JUDGE ROLE

In preparation for this event, you should review the following information with your event manager and other judges:

1. Participant Instructions, 21st Century Skills and Performance Indicators
2. Event Situation
3. Judge Role-Play Characterization
Allow the participants to present their ideas without interruption, unless you are asked to respond. Participants may conduct a slightly different type of meeting and/or discussion with you each time; however, it is important that the information you provide and the questions you ask be uniform for every participant.
4. Judge Evaluation Instructions and Judge Evaluation Form
Please use a critical and consistent eye in rating each participant.

JUDGE ROLE-PLAY CHARACTERIZATION

You are to assume the role of a district manager for BETTER BURGER, a fast-food restaurant with two drive thru lanes. You want a general manager (participant) to suggest methods to handle complaints about new technology in the drive thru.

The general manager's (participant's) BETTER BURGER location recently upgraded the point-of-sale technology in the drive thru lanes to be 100% generative AI. The management system uses AI knowledge based on data pulled from the BETTER BURGER menu and can generate responses, adapt in real-time, and provide a personalized experience for each customer.

Unfortunately, there have been challenges with the system. While 60% of orders are smooth, the system has problems interpreting different dialects, dealing with background noise, understanding special orders and when customers stop and restart an order. If the AI system cannot successfully confirm the order with the customer, an employee is notified and takes over. This has led to frustrated customers and delays in the drive thru lanes.

You want the general manager (participant) to suggest methods to handle the customer complaints and make the drive thru experience better overall.

The participant will present information to you in a role-play to take place in the general manager's (participant's) office. You will begin the role-play by greeting the participant and asking to hear about his/her ideas.

During the course of the role-play, you are to ask the following questions of each participant:

1. Do we need to inform customers of the changes we might make?
2. Do we need to inform our employees of the changes we might make?

Once the general manager (participant) has presented information and has answered your questions, you will conclude the role-play by thanking the general manager (participant) for the work.

You are not to make any comments after the event is over except to thank the participant.

EVALUATION INSTRUCTIONS

The participants are to be evaluated on their ability to perform the specific performance indicators stated on the cover sheet of this event and restated on the Judge's Evaluation Form. Although you may see other performance indicators demonstrated by the participants, those listed in the Performance Indicators section are the critical ones you are measuring for this particular event.

Evaluation Form Interpretation

The evaluation levels listed below and the evaluation rating procedures should be discussed thoroughly with your event director and the other judges to ensure complete and common understanding for judging consistency.

Level of Evaluation	Interpretation Level
Exceeds Expectations	Participant demonstrated the performance indicator in an extremely professional manner; greatly exceeds business standards; would rank in the top 10% of business personnel performing this performance indicator.
Meets Expectations	Participant demonstrated the performance indicator in an acceptable and effective manner; meets at least minimal business standards; there would be no need for additional formalized training at this time; would rank in the 70-89 th percentile of business personnel performing this performance indicator.
Below Expectations	Participant demonstrated the performance indicator with limited effectiveness; performance generally fell below minimal business standards; additional training would be required to improve knowledge, attitude and/or skills; would rank in the 50-69 th percentile of business personnel performing this performance indicator.
Little/No Value	Participant demonstrated the performance indicator with little or no effectiveness; a great deal of formal training would be needed immediately; perhaps this person should seek other employment; would rank in the 0-49 th percentile of business personnel performing this performance indicator.
